## **SECTION A**

### **1. INTRODUCTION**

**1.1** Eigoll Industries Kenya Ltd wishes to conduct an urgent prequalification of all suppliers (including existing suppliers). Our aim is to gain knowledge of specific groups of suppliers in different categories, in order to mitigate costs and risks for both Eigoll and suppliers/ service providers.

**1.2** Eigoll intends to effect a new supplier registration program to foster competitiveness in acquisition, contracting and disposal of goods and services.

**1.3** Pre-qualification is part of our risk management strategy, to reduce supplier related risks such as, failure to deliver supplies on time, non-compliance with all health and safety requirements, failure to supply as per the contract terms, suppliers' insolvency, technical competence, lack of resource capabilities, litigation costs, amongst others.

**1.4** At the end of this process, Eigoll will be able to determine supplier performance capabilities by establishing the suppliers' contribution in terms of source, costs, cycle time and quality.

**1.5** At the end of this process, Eigoll's Procurement Department will create a list of NEWLY REGISTERED SUPPLIERS who have experience, technical capacity, financial capacity as well as legal suitability to provide goods, works and services needed.

**1.6** By following this process, Eigoll will then invite the prequalified suppliers to participate in competitive tendering i.e. Request for Quotations (RFQ), Request for Proposals (RFP) and tenders, to enforce a culture of fair play, transparency, accountability and competitiveness.
